Whereas each year, States across the Nation formally proclaim September as Campus Fire Safety Month;

Whereas since January 2000, at least 129 people including students, parents, and children, have died in student housing fires, many of which were preventable;

Whereas a number of fatal fires have occurred in buildings where the fire safety systems have been compromised or disabled by the occupants;

Whereas it is recognized that automatic fire alarm systems provide the necessary early warning to occupants and the fire department of a fire so that appropriate action can be taken;

Whereas it is recognized that automatic fire sprinkler systems are a highly effective method of controlling or extinguishing a fire in its early stages, protecting the lives of a building's occupants;

Whereas many students are living in off-campus occupancies, Greek housing, and residence halls that are not adequately protected with automatic fire sprinkler systems and automatic fire alarm systems;

Whereas it is recognized that fire safety education is an effective method of reducing the occurrence of fires and reducing the resulting loss of life and property damage;

Whereas students are not routinely receiving effective fire safety education throughout their entire college career;

Whereas it is vital to educate the future generations of our Nation about the importance of fire safety behavior so that these behaviors can help to ensure their safety during their college years and beyond; and
